WHAT'S IN THE BOX

1. Controller 2. LEAN2 Floor Lamp 3. Mounting Kit 4. Instruction Materials 5. Power cord

SETTING UP YOUR NEW LEAN2

- 1. Plug the power cord into the controller. Your LEAN2 lamp comes pre-programmed with 3 settings. Pressing the switch once turns the lamp on and off. Pressing the button twice quickly cycles through the presets. See the below section to install the app and have full control over brightness, color, presets and more. Wi-Fi required for app use.
- 2. Place the lamp in a suitable location! Since this lamp is not freestanding, it needs to be secured to the wall so that children and pets can't knock the lamp over. Follow instructions on Page 3 for installing the corner mount. Only use the lamp indoors and do not expose to water or excessive moisture.

CONNECTING THE APP

- Download Kasa. Get the Kasa Smart™ app from the App Store® or on Google Play®. Search for "Kasa Smart" and download the application. Alternatively, scan the QR code to the right.
- 2. Connect to your network. Connect your mobile device to a 2.4GHz Wi-Fi network.
- 3. Log in. From within the app, log in with your TP-Link ID or create an account if you do not have one.
- 4. Add the LEAN2 Device. Tap the + button in the app and select Device to add your new LEAN2 smart lamp. Follow app instructions to complete the setup.

Disregard instructions on mounting the light strip.

For more instructions, refer to the User Manual for the Kasa Smart Strip included in the box or visit: www.tp-link.com/us/support/download/kl430/

SECURING TO WALL

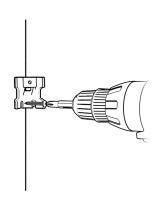

For a video on installing the corner mount, visit slantlamps.com/support.

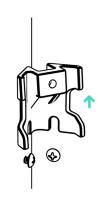

- 1. Use a phillips screwdriver to attach the corner mount to the lamp using the #6 x 1/2" phillips head screw.
- 2. Place the lamp in its final position. Depending on the thickness of the baseboards, the foot of the lamp will be around 7" 9" from the corner of the wall. Use a pencil to make a light mark on the wall along the top of the corner mount.
- 3. Remove the corner mount fromt the lamp and place the lamp aside. Line the corner mount back up with the mark on the wall and use a pencil to mark the locations of the screws. This will be at the top of the slots.
- 4. Use a 5/64" drill bit to drill pilot holes for the screws.

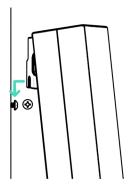

CAUTION: make sure not to place a screw into wiring. Electrical shock is possible.

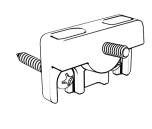

6. Fasten the corner mount to the wall using the two #6 x 1" wood screws. Use a handheld screwdriver to tighten. Do not overtighten, the corner mount should be able to slide out with the screws in place.

7. Remove the corner mount by sliding it upward. Reattach the corner mount to the lamp using the #6 x 1/2" phillips head screw (as in step 1).

8. With the corner mount attached to the lamp, slide the corner mount back over the two screws in the wall. Make sure the foot of the lamp is in the correct position and installation is complete.

Optionally, use the wall mount to secure the wall to a flat wall, not in the corner. The same process applies to install the wall mount.

CARE & MAINTENANCE

Use a soft, dry cloth (such as microfiber cleaning cloth) to wipe the lamp down. For scratches in wood, a natural and non-toxic beeswax can be used. Buff with a dry cloth.
